

Experiences and Perspectives in Pilot Region Rhaethian Triangle

Angelika Abderhalden, Foundation Pro Terra Engiadina
Ruedi Haller, Swiss National Parc

Experiences...

Strategic (spatial) planning
'data availability, databases,
tools, stakeholder participation'

Alpine wide knowledge of ecological connectivity status
(CSI-Index) and data availability

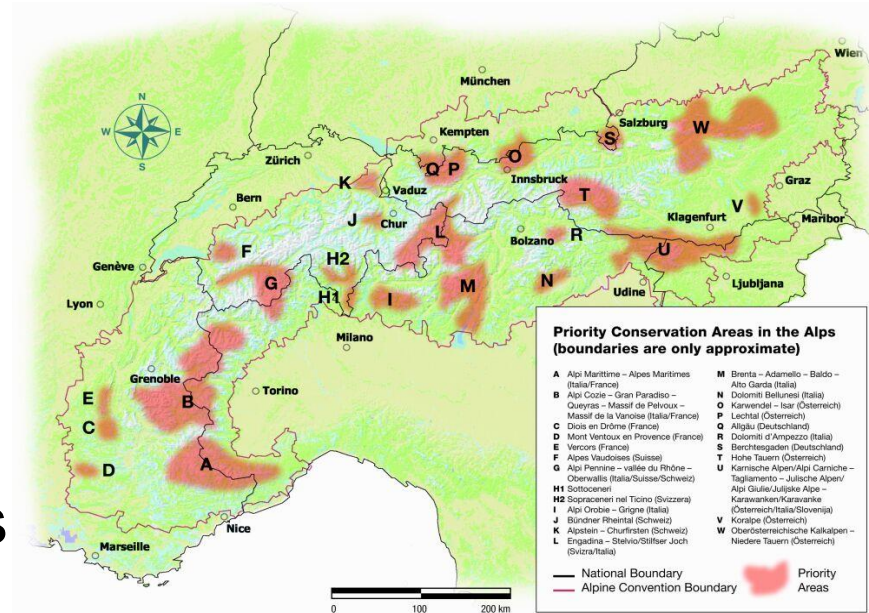

Experiences...

Strategic planning

Biodiversity Action Plan PCA L and implementation

lead by WWF CH

- promote biodiversity (species and habitat approach)
- awareness raising (biodiversity day)
- appreciation and value added project

Experiences...

Implementation of regional measures for enhancing ecological connectivity

‘Nature active days’

Additional value for:

- nature
- tourism
- agriculture (economy)
- society

Success

Experiences...

Promotion of trans-sectoral or trans-national projects

Conversion of existing buildings

Additional value for:

- ↗ nature
- ↗ tourism
- economy
- ↗ society

Success

Experiences...

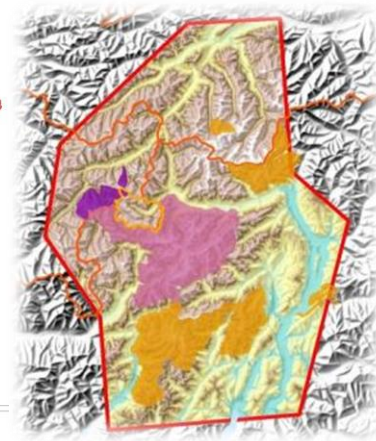

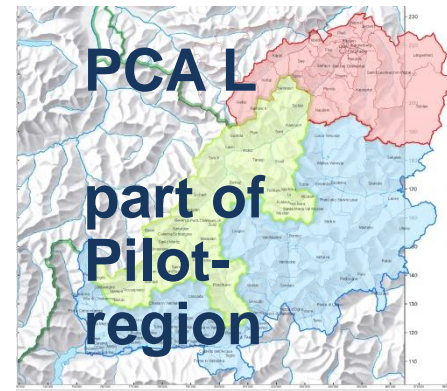

...Perspectives

Promotion of trans-national projects

CLLD – Terra Raetica

Community led local development

A mutual project of Tyrol-South Tyrol-Trentino

Perspectives...

Strategic Planning for Alpine River Ecosystems
– integrating protection and development

Advanced participatory methods, political willingness

www.alpine-space.eu/SPARE

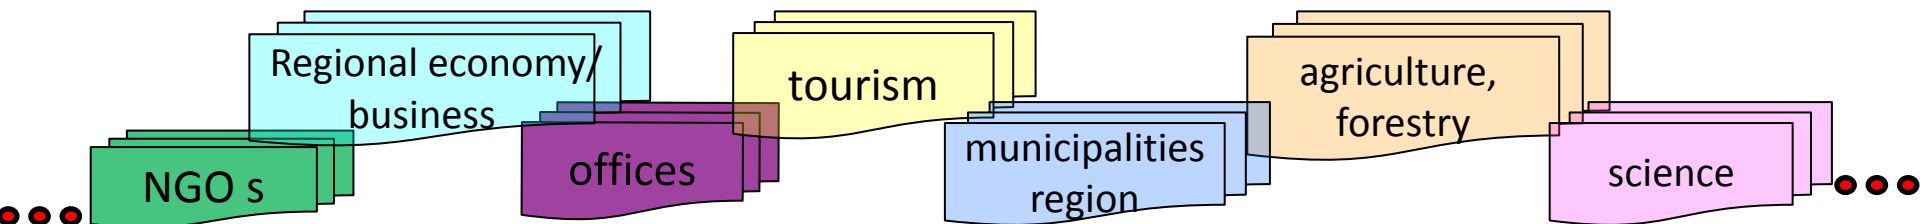

Integrated River Basin Management plan in Engadine

Perspectives...

- Ongoing works in all fields and all regions
- Strengthen (intensify) the crossboundary collaboration
- Establish at least one crossboundary connectivity project (examples: Inn dialogue, climate change mitigation, corridors..)
- Make the alpine convention pilot region status on local, regional and national level more visible
- Bring together the different approaches of protected or important areas and their 'leaders' for a mutual benefit

Expectations...

- Scientific support
- Informations in form of workshops and transfer of knowledge between all alpine convention pilot regions
- Support in funding (publicity..)
- National support
- Support for cross-border and transnational projects

...ecological infrastructures, species, knowledge, planning...

improve ecological connectivity...
